

Exoriens

Green Asparagus

Asparagus is delicious, healthy, and easy to prepare. These qualities make asparagus increasingly popular. Over the last five years asparagus sales have seen double digit growth.

Asparagus was originally grown in Europe over two thousand years ago. Now, Exoriens is meeting demand all year-round, with production from Thailand, Australia, Mexico, and Peru.

Exoriens' standard packaging for fresh asparagus is a corex carton, and bundling is prepared as per customer preference.

We also offer a foam carton with gel bags for destinations with less efficient cool-chains.

Our most common specifications are as follows, with others available on request.

Asparagus "Spec A", (diameter 12-15mm; length 22.5cm)

Packing: 6 kg / carton; Loading: 210 boxes / LD3 = N.W. 1,260 kg

Asparagus "Spec B", (diameter 8-10mm; length 15cm)

Packing: 4.25 kg / carton; Loading: 240 boxes / LD3 = N.W. 1,020 kg

We offer shipments mixed with both specifications and/or other produce, and LCLs.

Also available are asparagus tips in trays of various sizes.
